

A UNITED COMMUNITY BANK COMPANY

FINANCE OPTIONS that work for your business!

You've found the perfect equipment to meet your expanding business requirements. You're confident that, over time, the equipment will more than pay for itself. Still, it is important to keep precious capital and lines of credit free for future growth opportunities. The wise business decision: "If it appreciates, buy it. If it depreciates, lease it." Our financial services team will customize a lease-financing plan that will result in payments that fit easily into your operating budget. There's no immediate, large capital outlay, and you have the flexibility to upgrade as new technology becomes available. Now that's a plan worth looking at. You will be quickly provided with a quote that has the feature that matches your operating budget and business goals.

Benefits of Leasing

Use of Equipment

Leasing provides you with the use of the equipment for an agreed-upon monthly payment—so you are able to pay as you use.

Tax & Accounting Benefits

Current tax issues may offer distinctive reasons to lease. If your company is a taxable entity, your lease payments may be tax-deductible.

Flexibility

You can select a payment plan that best fits your budget. Your Program Manager will help you structure the "right" transaction.

Easier Cash Flow Forecasting

Fixed monthly payments help you better budget money.

Easy as 1-2-3

We provide you a fast and easy application and approval process. Lease documents are provided electronically as well to help quicken the order process.
