- Redesigned adapters provide four points of connection from spray gun to lid, improving stability and confidence especially in large applications
- Domed lid geometry and a wider fluid spout allows up to 3 fl. oz. (90 mL) of material to be held below the filter reducing inconsistent spray due to air-entrapment and sputter
- Full-diameter filters are built into every lid for the highest quality filtration; aids with fluid flow

INFRATECH CORPORATION

INFSRU1615 \$254.99 **1500W InfraredHeat Lamp** **Portable Curing System, 120 Volt**

- UL Listed
- Heavy-duty construction can stand up to the punishing conditions in any body shop
- 1,500 watts of power
- Covers up to 24 square feet

Available in 120 or 240 volts, this portable unit comes with a heavy-duty stand and casters. Its stand adjusts to 6' tall. The SRU-1615 is dependable, versatile and unbelievably affordable. Maybe that's why over one million "Speed-Rays" have been sold. The SRU-3215 is the same great unit as the SRU-1615 except it has two heads instead of one. This doubles the amount of coverage to 24 square feet. These units are suitable for use with all automotive-type finishes. Ideal for small spot repair and curing body filler.

PRICING GOOD THRU MARCH 31, 2020

PLEASE NOTE: All prices are subject to change at any time without notice. Due to recent Tariff changes by the U.S. Government, it may be necessary to implement a Force Majeure pricing event on certain products. This advertisement was prepared in advance, therefore, merchandise availability could be limited and is subject to the delivery schedule of the manufacturers. Advertised items may not be stocked by all locations. We are not responsible for typographical, pictorial, or pricing errors.

Products advertised within this publication may contain chemicals known to the State of California under Proposition 65 ("P65") to cause cancer, birth defects or other reproductive harm. Many products are noted with a P65 WARNING; however, the warnings may not apply to all items. Further, as this is a new regulation and all vendors may not have yet identified their products as subject to P65, all items that need a warning may not be noted. Contact the manufacturer for specific details regarding P65. We appreciate your understanding as we navigate these new requirements.

CAUTION: Always wear appropriate safety equipment and observe safety advice and proper use of equipment as instructed in warning and caution labels and operating instructions.
